VAUGHAN'S SEED STORE

NEW YORK, 14 Barclay Street

CHICAGO, 84 and 86 Randolph Street

GREENHOUSES: WESTERN SPRINGS, ILLINOIS

TERMS on Florists' stock: To customers of approved credit, **60 Days**, except on certain **Cash** items. Special 3 per cent. discount for cash in Ten days (from these list prices only), not from the "Special" quotations and excepting **Net Cash Items**.

New Accounts: New customers, if not already well-known, will please send cash with first order if desiring to open an account send good references, property statement or other information concerning their commercial standing as they may be able to furnish. This will avoid delay which is very annoying. We cannot be expected to ship goods to those whose good standing is not known to us. For reference please name bankers, wholesale merchants or other well-known business men with whom you have had dealings—such information will be held in confidence.

Our Responsibility: While we always aim to have the best SEEDS, BULBS AND PLANTS which each season affords from reliable houses, we cannot and do not guarantee any of them to flower or produce a crop of flowers at the price given, or will we be responsible for the crop. We assume our customers to be acquainted with these conditions and if the stock is not accepted on such conditions it must be returned at once and any money paid will be refunded. Live plants and like perishable stock should be sent by express; we cannot assume any responsibility whatever for safe arrival when such plants are ordered by freight by the purchaser. The remedy for loss must lie between the buyer and the Railroad Company, but we will gladly render all the aid we can.

We prefer not to send goods C. O. D., but when wanted in that manner some money must accompany order. PERISHABLE stock, plants, etc., are **Positively NOT SENT C. O. D.**

We ship plants by all express lines to any part of the country. Under the ruling of the leading express companies plants packed closed boxes or baskets are now being carried at the "GENERAL SPECIAL" rate, which means a reduction of 20 per cent. from the regular merchandise rate. Boxes weighing less than 100 pounds are charged at pound rates, but the minimum charge is 45c. For example, if the general rate is \$5.00 per 100 lbs., a box containing 25 lbs. will cost \$1.00, which is a saving of 25c.

This fertilizer is non-odorless, dry, fine and easy to apply. Two or three applications during a season, just before a rain or watering, at the rate of one pound to each 100 square feet of grass keeps it in a flourishing condition and enables it to withstand the scorching sun. This fertilizer can also be used on all garden truck, flower and house plants.

Vaughan's Novelty Cannas For 1901

THE illustrations on this page are poor excuses to display the merit of our grand Canna Victory, but we can assure buyers that they will not be disappointed in ordering this kind. We are watching our records in the dissemination of Cannas and do not send out unreliable sorts. Our record in disseminating Chicago, Egandale, Florence Vaughan, Leonard Vaughan and other leading kinds speaks for itself.

We discard and throw into the mixed lots all the named varieties which do not keep up to our high standard and we do not admit a new one to our collection, even if of excellent color, unless the flowers will measure up to the new standard or it has extra claim in the way of foliage. Write us regarding any rare or scarce kind you wish.

We can supply dormant plants until March 1st, after which time we offer them from 3-inch pots. Book your order in season and then you will have them. You are sure to need these for your retail trade.

CARNATION "PROSPERITY."

Known first as No. 666.

Messrs. Daillidouze Brothers, who are propagating and introducing this new variety to the trade, have well proved its value in the New York cut-flower market for the past two years, the blooms retailing in that city a year ago at 50 cents each for nearly the entire winter season. It is the largest flower yet produced, but not so double as Mrs. Bradt. Messrs. Daillidouze Brothers say of it: "No. 666 has been awarded the highest honors wherever shown. Its habit is, as has been stated by all Carnation growers that have seen it growing, nearest to the ideal yet produced. It makes no useless grass, but goes straight up to bloom; one shoot follows the other continuously, and will attain a height of 4 feet by January 1st, under no special culture. It is not subject to any of the diseases that attack Carnations, and altogether it is a clean, healthful and exceptionally strong grower. We modestly claim that No. 666 is the largest perfect Carnation ever offered—4 inches in diameter. The color is entirely distinct and does not conflict with varieties now on the market. The ground color is white, overlaid with pink in mottles, deepening to center, reminding one of the beautiful tints seen in Azaleas and Rhododendrons."

CHRYSANTHEMUMS.

NOVELTIES FOR SPRING OF 1901.

Ready
March 1st.

MRS. ELMER D. SMITH. (N. Smith & Son.) Of the many fine seedlings we have produced in the last ten years, we consider this one possesses more points of excellence than any of its predecessors. A Jap. Cup Contest, at Chicago, it stood second, falling only one point behind the winner. The blooms in this exhibit were 7 inches in diameter. Stem and foliage perfect; scant 3 feet high. This variety will rival Maj. Bonnaffon, being brighter in color, more dwarf, very similar in form, with much heavier and stronger stem. In season November 1st to 10th. Four of the C. S. A. Committees gave this variety an average of 92.75 points. Each, 50c; doz., \$5.00; 100, \$35.00. Ready April 1st, 1901.

CHOICE AND RARE VARIETIES.

COL. D. APPLETON. The best yellow of last year's introduction. The flower is Japanese incurved, bright yellow in color, of great depth and solid build, not showing any center, the lower florets reflexing to the foliage. Besides its immense size and beautiful color, another point in its favor is its almost faultless stem and foliage. Doz., \$1.25; 100, \$10.00. Ready March 1st.

WM. H. CHADWICK. This is the finest late white Chrysanthemum that has ever been introduced, either for commercial purposes or for exhibition. Flowers are pure white, occasionally tinted pearly pink. An ideal grower, with very strong stem and luxuriant foliage, meeting all the requirements of a first-class, A No. 1 market flower, every stem producing a perfect flower of the very largest size. You can have a fine cut for Thanksgiving. Ready in March. Doz., 75c.; 100, \$5.00.

GOLDMINE. Unsurpassed in size, having been grown 11 inches in diameter. Foliage and general habit resembles Sunderbruch. Rich golden-yellow. Outer petals reflexed and center incurving in a whorl. In perfection November 20th to 30th. Best flowers were from buds taken October 10th. Doz., \$1.25; 100, \$10.00.

INTENSITY. Form reflexed, showing only the bright crimson upper surface of petals. Stem slender but sufficiently wiry to carry the flower erect. 4½ feet high. Those desiring succession of flowers can readily conceive the value of a bright crimson in perfection November 20th to 30th, a date when other good reds are scarce. Doz., 75c.; 100, \$6.00.

WALTER MOLATSCH. October 8th, and the variety is most easily described as an early Wm. H. Lincoln. It is of good size, full center and excellent keeper. In habit the plant is dwarf, growing about 3 feet high, the stem is thick and stiff and the foliage all that can be desired. Doz., 75c.; 100, \$6.00.

SUPERBA. The latest Japanese incurved pink that has come to our notice, being in perfection December 10th to 20th. A very double flower 5½ to 6 inches in diameter with high, rounded center. Color bright pink. This we believe to be one of the best commercial varieties. Doz., \$1.00; 100, \$8.00.

WHITE BONNAFFON. A commercial variety of great promise which we predict will become as popular as the typical Maj. Bonnaffon. Color pure white, form identical with Bonnaffon, growth very short-jointed, not exceeding 3 feet in height. Foliage large and very dark green. Its lateness (November 20th to 30th) greatly enhances its value. Doz., \$1.00; 100, \$8.00.

YELLOW CHADWICK (ECLIPSE). Has all the good qualities of W. H. Chadwick, same shape and size of flowers, the color being a chrome yellow. We recommend this for a first-class late yellow. Per 100, \$5.00.

MRS. TRENOR L. PARK. The color is unsurpassed by any of its class, being a clear bright golden-yellow; in size, the largest yellow we have ever grown. In finish it is exquisite; the stem and foliage are grand, being a free, handsome grower of medium height—a midseason variety. For a pot plant it cannot be excelled. Per 100, \$4.00.

JOHN K. SHAW. Ball-shaped, incurved, pink. One of the very best commercial varieties. Very strong grower, with exceptionally strong stem and luxurious foliage. An excellent keeper and shipper. This variety sells well over the counter; ready to cut October 25th. Per 100, \$5.00.

XENO. A very late bright pink of the Japanese incurved type. In color similar to Mrs. Perrin, but larger and perfectly double. Cut November 24th. Per 100, \$5.00.

GEO. W. CHILDS. The best red for general purposes, fine for pot plants or for cutting. Per 100, \$5.00.

YELLOW MRS. JEROME JONES. We consider this one of the very best to grow for your Thanksgiving flowers; is identical with the white Mrs. Jerome Jones, except the color being a bright lemon-yellow. Per 100, \$5.00.

BOSTON FERNS

Nephrolepis Exaltata
Bostoniensis....

This popular Fern has proven one of the best decorative plants of recent introduction. It is a rapid grower, works up fast and is a good seller. The distinctive feature of this beautiful Fern is, the fronds are much larger than the common Sword Fern, and do not stand so stiff, but droop over in a graceful manner. Excellent for making large specimen plants. Every florist should grow the Boston Fern. We have the finest stock in the West. All our plants are pot-grown, bushy stock, well furnished with fronds from the pot up, and cannot be compared with the cheap, long-drawn-up, lifted stock from the bench. A sample shipment will convince you of our superior stock.

ROSES FOR FLORISTS.

THE GRAND NEW ROSE —PRINCESS OF NAPLES.

Or it may also be called a Pink American Beauty.

The plant has the same habit, size and shape of flowers as the American Beauty, only the color being a delicate satiny pink; the fragrance is excellent. We strongly recommend this rose as a pot plant; for forcing it requires to be rested or kept on the dry side for a few weeks and pruned sharply and when started into growth will give a flower on every shoot, producing stems, when bunched up, as long as an American Beauty.

American Beauty for the retail counter trade and might be preferred for many purposes. A brilliant and showy flower with 18-inch to 2-foot stems and fine foliage. Some Chicago growers have great confidence in it and are preparing to plant largely.

The Best in America.

Florists' Flower Seeds.

The Stocks here offered are in all the important kinds special strains selected and kept true for florists' use. In every class of interest for Florists, such as Asters, Pansies, Primulas, Cyclamen, Cinerarias, etc., we not only carry a complete assortment, but also the most expensive strains that the most careful growers and hybridizers can produce. We use in all our choicest mixture of the florists' seeds some varieties which actually cost us more than the selling price, but which bring up the mixture to a high standard.

Of New Crop and Tested Germination.—We prove the growth of our active selling stocks twice a year and none are sent out which do not show the right percentage of growth.

By Our Contract Arrangements, supplying our stock seed, we are in position to offer Flower Seeds at very best trade rates, but of quality much superior to average importation.

PLEASE NOTE.—Trade packets contain considerable more seed than ordinary or retail packets, being based on Florists' needs for ordinary purposes. Florists invariably get trade packets unless otherwise specified.

FLOWER SEEDS FOR SOWING IN SUMMER.—Cinerarias, Primulas, etc. We issue a special circular in May. Should you fail to receive one, please write for it, as we have some very desirable Novelties to offer.

NOVELTIES AND SPECIALTIES.

ARCTOTIS GRANDIS.

A remarkably handsome new annual from Southwest Africa, growing luxuriantly and forming profusely branched bushes of about 2 to 2½ feet in height and breadth. The leaves are soft and whitish. Its flower-heads, borne on long stems and rising well above the foliage, are large and showy, from 2½ to 3 inches across; the ray florets being pure white on the upper surface, are embellished by a narrow yellow zone at their base; reverse of petals pale lilac. Under the influence of bright sunlight the flowers spread out almost flat, and the pure white of the ray florets contrasts beautifully to the light blue disk with its slightly projecting white stamens, a lovely combination of colors. Being of very easy culture, the plants produce their splendid flowers most abundantly and in constant succession from early summer to the autumn. Pkt., 15c.

NEW GIANT FRAGRANT SNAPDRAGONS.

The flowers of this new strain are of very large size, very fragrant, and are produced on immense long spikes, which render them extremely well adapted for cut-flowers. They are easily raised from seeds, and will grow and bloom in almost any rich, sunny bed. Spring seedlings begin to bloom by Midsummer, and if the flowers are cut freely the flowering will be continuous till Fall. If intended for Winter flowering in the house, cut them well back in September, to induce strong, hardy growth.

Spike of Giant White Snapdragon reproduced from a photograph two-thirds natural size.

New Giant Imperial Centaurea.

Centaurea Imperialis.

This new Centaurea, a cross between *C. Moschata* and *Margaret*, represents the best that has been produced in these beautiful summer-blooming plants. The bushes are about 4 feet high, of enormous dimensions and are covered with large, beautiful flowers of the same form and fragrance of *Centaurea Margaret*. The flowers will keep over a week in water, if cut just when they are about to open. It is of easiest culture, which cannot be said of *C. Margaret*.

We can furnish them in the following colors:

Pure White. One of the best white flowers for cutting, extremely large, sweet and beautiful.
Armida. Very delicate color, pink with white tinge.
Favorita. Brilliant rose.
Graziosa. Intense dark lilac.
Splendens. Brilliant dark purple.
Variabilis. White, marked purple.

Price of any above 6 kinds, per oz., 60c.; ¼ oz., 20c.; trade pkt., 10c. Any 3 pkts., 20c.; 6 pkts., 1 of each kind, for 35c.

NEW GIANT IMPERIAL CENTAUREA.—All colors mixed. Per oz., 50c.; ¼ oz., 20c.; Trade pkt., 10c.

CANDYTUFT—LITTLE PRINCE.

In appearance like the Giant Hyacinth-Flowered. The bushes grow only about 6 inches high, the spikes are very massive, pure white and planted in a row or mass, the effect is very fine. It also makes a fine pot plant. Trade pkt., 10c.; ¼ oz., 20c.; oz., 60c.

Chrysanthemum Maximum "Princess Henry."

The finest and most valuable of the Maximum varieties. This very floriferous plant, which grows only about 18 inches high, is of a globular shape and very decorative, the flowers open 4 inches and more in diameter, and give an abundant and very handsome material for cutting. It comes true to seed. It is not particular as to soil, coming up every Summer in the same beauty for many years, and outlasts the severest Winter. Pkt., 15c.

NOVELTIES AND SPECIALTIES.

EVERLASTING PEA, "PINK BEAUTY."

Lathyrus Latifolius Var.

A hardy perennial that will bloom from seed the first year.

An entirely new variety, the color of which is a delicately shaded pink on the standard, the lacing on the edge being paler than the center, the wings are deeper pink, of a very rich shade, giving it a very striking appearance. The trusses, as well as the individual flowers, are larger than the older varieties.

Trade pkt., 10c.; oz., 15c.; 2 oz., 25c.

Vaughan's New Upright Branching Asters.

In habit of growth this new Aster resembles the Truffaut Paony-flowered type, but the plants grow from 10 to 12 inches taller. The flowers are large, very double, and of the true "Semple" type. The plants grow about 30 inches high, and produce from 20 to 25 flowers, which are borne on stems from 20 to 24 inches long. Its upright habit admits of close planting and it will attain full growth when set only 15 or 16 inches apart. The growing of many plants in a small space is a decided advantage when room is scarce. We can furnish this in white and pink.

Vaughan's Upright White Branching Aster. Trade pkt., 15c.; ¼ oz., 25c.; oz., 80c.; ¼ lb., \$2.75.

Vaughan's New Pink Branching Aster. Trade pkt., 25c.; ¼ oz., 40c.; oz., \$1.50.

NEW GIANT VICTORIA ASTER.

SNOW WHITE.

The plants are strong, luxurious growers, attaining a height of about 2 feet, branching out freely into well-formed bushes of pyramidal habit, each plant bearing 15 to 20 magnificent, very large, very double flowers that are 4½ to 5 inches in diameter. The broad petals are beautifully imbricated, laying the fashion one on top of the other to the center of the flower. Really a grand variety for show beds and for exhibition purposes. Trade pkt., 25c.

SINGLE LATE-FLOWERING ASTER.

PALE MAUVE.

This is the true original type from China. The plants form elegant branching bushes about 15 inches high, well furnished with dark green foliage, producing an abundance of large, handsome flowers 3 to 4 inches across, having a single row of pale mauve ray florets and a golden central disk. It is quite distinct from any of the single asters now in commerce and is indeed a plant of great beauty. Trade pkt., 10c.

ASTER—DAYBREAK.

This beautiful Aster for florists' use is simply unsurpassed. The flowers are round as a ball, very large and full, on long stems; the color a charming sea-shell pink; the plant flowers very early and is a continuous free bloomer, a compact, strong grower, and in all respects a desirable acquisition.

Trade pkt., 25c.; ¼ oz., \$1.00.

THE "MAYFLOWER" VERBENA.

This is of the same trailing habit as the Arbutus or Mayflower. Its branches creeping over the ground and hugging it closely. Its blossoms appear in clusters at the ends of the creeping vines, and are of the same shape and about the same size. The new Verbena Mayflower has all these characteristics, with the additional merit of possessing the same lovely and delicate pink and white coloring, making its flowers closely like the Arbutus; and, last, it has the same exquisite fragrance. It was originated by Luther Burbank, who pronounced it one of the greatest achievements of his work in hybridizing and growing new flowers and fruits.

Trade pkt., 25c.; ¼ oz., 50c.; oz., \$2.00.

VERBENA, BURBANK'S "NEW FRAGRANCE" STRAIN.

Mr. Burbank says: "This came originally from 'Mayflower Verbena,' but is improved by selection, so that a greater per cent. are fragrant and in all colors now. The flowers are of the very largest size and it is without a doubt the best strain of Verbena in existence." Our seed is of Mr. Burbank's own saving. Trade pkt., 25c.

NEW GIANT PYRETHRUMS.

Pyrethrum roseum hyb. *grandiflorum*.

The flowers of this new strain grow to the enormous size of 12 inches in circumference and present all the beautiful variations of color between light pink, rose and deep carmine. They are splendid cut flowers and equally valuable in borders. The plants are perfectly hardy and increase in size from year to year. Pkt., 15c.

MOSS VERBENA. This new Verbena produces a mass of fine, moss-like foliage, and as the branches spread out over the ground in all directions, a lovely carpet of mossy green is formed, above which are borne the delicate clusters of blossoms in the wildest profusion. The effect is most charming. It is more hardy and robust than most Verbenas, and blooms in a very short time and until late in Fall. It is novel and beautiful.

“Bismarck.”—Our Machet has a very good reputation and is the best strain in existence. This new sort is an improvement on it, both in color and size of flower, and we want every florist to try it. Pkt., 10c.; ¼ oz., 35c.; oz., \$1.20.

MIGNONETTE, True Machet.

The seed we offer produces dwarf, vigorous plants of pyramidal growth, with very thick, stout flower stalks. Finest in every way for florists' use and for pots. We have tested this with several of the fancy named strains and always with results favorable to our seed. Pkt., 10c.; ¼ oz., 25c.; oz., 50c.; 2 oz., 75c.; ½ lb., \$1.25.

MASTERPIECE.

VAUGHAN'S PANSIES.

MASTERPIECE—NEW GIANT CURLED.

This strain comes nearer to "Double Pansies" than anything ever introduced under that name. In reality the number of petals is the same as that in other Pansy flowers, but they are crimped and curled in such a fashion that the flowers appear double. The flowers are of enormous size, often 3 inches across, and the color variations and combinations are odd and striking. We have seen these Pansies in bloom in the originator's grounds and have therefore personal knowledge of their exceptional merit.

Pkt., 50c.; ½ oz., \$1.50.

VARIABILIS. Salmon, buff and terra cotta shades, mixed. These shades are entirely new additions to the already large variety of colors found among Pansies. Pkt. (200 seeds), 10c.

DIANA. Pure cream color; an entirely new shade. Pkt. (200 seeds), 10c.

GIANT PHEASANT'S EYE. Pretty four-colored variety of the Giant class. Pkt. (200 seeds), 10c.

GIANT BRONZE-COLORED. Rich metallic shades, Giant flowers. Pkt. (200 seeds), 10c.

NEW GIANT MADAME PERRET. This novelty is specially distinguished from other Pansies by the plant being full and spreading with very broad and extremely dark green leaves. The straight and stiff stems it possesses cause the flowers to stand out well from the foliage. The color of the blossom ranges through all the shades of red, from a pink to a fine deep purple, with an intermediate bright red edged with white. The face of the flower in some cases is regular in color, while in others it is lined and striped. The extraordinary size of the flowers, which reach as much as 3 to 3½ inches in diameter, make it a novelty of the first rank, and one that is sure to be sought after by lovers of Pansies.

Pkt. (200 seeds), 15c.; 2 for 25c.; ½ oz., 50c.

EMPRESS AUGUSTA VICTORIA. A charming new sort. Color porcelain-white with a soft blush cast. The upper petals are margined violet, while the lower petals are marked with a large purple blotch. It was awarded a silver medal at the Hamburg Horticultural Exposition.

Pkt. (250 seeds), 10c.; ½ oz., 40c.

NEW GIANT SWEET-SCENTED. The flowers of this choice strain are of enormous size, in Spring and Fall, often measuring 4 inches across, and have a much stronger fragrance than any other Pansy.

Pkt., 25c.; 3 for 65c.

FAIRY QUEEN. As a bedder, or as a solitary plant, this is a remarkably effective new Pansy. Size very large, color pure sky-blue, splendidly bordered with white, producing a distinct effect and a delicacy of color combinations which is rare. This is by all odds one of the most pleasing colors we have ever seen in Pansies, and its large size and perfect shape make it more than beautiful.

Pkt., 10c.; ½ oz., 30c.; oz., \$1.00.

VAUGHAN'S INTERNATIONAL PANSIES

—THE WORLD'S BEST. This is a combination of as many separate colors, types, blendings and unique kinds as can be found in the world. It has been made up and sold by us for twelve years; it is the best general mixture in existence and is most widely known and popular. It is used by most florists. It received the highest award at the Columbian Exposition and was awarded the gold medal at Omaha in 1898. It contains the cream of the Pansies listed on this page and besides 8 different strains, the crack selections of noted Pansy specialists, which we purchase every year especially for this mixture and which cannot be had in any other way. We beat the world on Pansies. Price, per oz., \$10.00; ½ oz., \$5.00; ¼ oz., \$1.50; trade pkt., 50c.

Nasturtium.

SPECIAL OFFER.—Any four (10c.) ounces of the following Nasturtiums for 25c.

New Nasturtium "Chameleon."

This new Nasturtium is a most remarkable advance in this brilliant family. We find that in richness and variety of colors it surpasses any other strain and is also unique in bearing flowers of *quite distinct coloring on one and the same plant*—some clear, deep crimson, others blotched on light ground, and others beautifully mottled. This characteristic, as well as the wonderful richness of the unusual markings, has been fixed in both the tall and dwarf forms, and we recommend both strains heartily to every grower.

Tall Chameleon.—This variety, with its very large, rich flowers in the greatest variety, is unsurpassed for training over fences and trellises, and blooms with the greatest freedom the entire season. Trade pkt., 10c.; oz., 15c.; 2 oz., 25c.; 1/2 lb., 45c.; 1 lb., \$1.50.

FERTILIZERS.

Please Note. Prices on Bone Meal, Vaughan's Rose Grower Bone and Lawn Fertilizer are f. o. b. Chicago. If to be shipped from New York we charge at the rate of 30c. per 100 lbs. extra, or \$5.00 per ton on lots of 1,000 lbs. or over. Fruit trees and vines to thrive require plenty of well-balanced food. If the food is not in the soil of the orchard or field it will have to be put in. The necessary elements of plant food which are likely to be exhausted are Nitrogen, Phosphoric Acid and Potash. Barnyard manure and Commercial Fertilizers both contain these elements. Commercial Fertilizers contain them in more concentrated, available, better balanced form. Barnyard manure is out of balance—does not contain enough of the mineral elements. There are great differences in Fertilizers as there are in every kind of merchandise.

VAUGHAN'S "ROSE GROWER" BONE MEAL.

This is a special brand we have put up for the trade. It is ground fine, hence acts quickly. Free from acid, very white in appearance and a superb article. It is made from bone accumulated in large slaughter houses, and should not be compared with Bone Meal made from cattle heads and feet gathered on the western prairies. Our "Rose Grower" bone has been slightly steamed to soften it so it can be ground fine, and is thus quicker in its action. The finer bone is ground the quicker the mild acid thrown out can be dissolved by the tiny roots of the plants

and made use of as food. A finely ground bone can also be more evenly distributed through the soil. ANALYSIS.—Ammonia, $4\frac{1}{2}$ to $5\frac{1}{2}$ per cent. Total phosphoric acid, 22 to 25 per cent. Total bone phosphate, 48 to 54 per cent. Price, 5 lbs., 25c.; 10 lbs., 40c.; 25 lbs., 60c.; 50 lbs., \$1.00; 100 lbs., \$2.00; 200 lbs., \$3.50; 500 lbs., \$8.00; 1000 lbs., \$15.00; 2000 lbs., \$30.00.

VAUGHAN'S SHEEP MANURE.

From Sheep fed on grain in covered barns. An ideal Fertilizer for all uses. Rich in plant food. No offensive odor. No germs of wild seeds. Machine dried, no shrinkage in weight. Ground to a uniform fineness.

Our Sheep Manure contains larger percentages of ammonia, available phosphoric acid and potash, because of a special method of treatment which preserves these elements during the course of manufacture. A recent test of 50 tons, which was shipped to our buyer, showed ammonia, 4.48 per cent.; available phosphoric acid, 1.83 per cent., and actual potash, 2.39 per cent. Ordinary sheep manure contains about 1 per cent. ammonia and an unappreciable per cent. of phosphoric acid and potash.

Price, per 100 lbs., \$1.00; 500 lbs., \$4.00; 1000 lbs., \$7.50; 2000 lbs., \$14.00 f. o. b. Chicago.

Clay's Fertilizer. This valuable imported manure is especially recommended. It should be used in potting soil and as a top dressing. 5 lbs., 50c.; 10 lbs., 80c.; 25 lbs., \$1.85; 50 lbs., \$3.25; 100 lbs., \$6.25. If shipped from New York, \$5.75.

Muriate of Potash. 100 lbs., \$3.00; 200 lbs., \$5.80; 500 lbs., \$13.75; 1000 lbs., \$27.00; 2000 lbs., \$53.00.

Bone, Blood and Potash. This is our best brand of concentrated manure, excellent for mixing into potting soil or as a top dressing. It is a money-maker. For potting soil use about 20 lbs. to a cubic yard of soil, and for top dressing scatter it on about as thick as lawn grass is sown, after loosening the surface of the soil. It is excellent for Carnations if applied by the end of October or in November. It can also be applied as a liquid manure by using an 8-inch pottul to a barrel of water. Price, 25 lbs., 70c.; 50 lbs., \$1.25; 100 lbs., \$2.00; 200 lbs., \$3.75.

PUTTY BULB.

Both at Chicago and New York we are strictly headquarters for Mastic jobbing at lowest rates in quantity.

MASTICA, for Glazing Greenhouses. The use of "Mastica" avoids the necessity of repeatedly reglazing the houses, saving much time and expense. With "Mastica" can be bed in or use outside, with a machine. Broken glass can be easily removed and replaced by new without the breakage of other glass, which usually occurs with hard putty.
